PROFILE

I'm a Backend Developer with 2+ years of experience building scalable, efficient, and reliable web applications. My core expertise is in PHP and the Laravel framework, working with MySQL, and using tools like Redis, MongoDB, and Docker to enhance performance and system reliability.

Right now, I'm taking a major step forward in my career by actively learning Go (Golang) to strengthen my backend engineering skills and prepare for more high-performance, distributed system development. I used Python earlier in my programming journey, but my main focus today is mastering Laravel and transitioning into Go.

I enjoy turning ideas into clean, maintainable backend solutions and I value teamwork, problem-solving, and knowledge-sharing in every project I'm part of.

SKILLS

PHP	MySQL	Docker
Laravel	PostgreSQL	Docker Compose
Python	MongoDB	RabbitMQ
HTML & CSS	Redis	Linux
JavaScript	Git	Familiar with Go

EXPERIENCE

DNAUNION ([EMRC](#)), Tehran — Full Stack Developer

April 2025 - Present

- Developed and maintained full-stack applications using PHP (Laravel) and Vue.js.
- Implemented Redis caching strategies to reduce response times and improve system performance.
- Used RabbitMQ to build reliable asynchronous communication between microservices.
- Containerized applications using Docker and Docker Compose for consistent development and deployment.
- Optimized database queries and application logic, achieving a 30% increase in efficiency.
- Collaborated with cross-functional teams to manage and analyze large datasets.

Skills: PHP, Laravel, MySQL, MongoDB, Redis, RabbitMQ, Docker, Docker Compose, Linux, and Vue.js.

Ulfat e-Commerce Dev ([Zanjiretamin](#)), Tehran — *Back End Developer*

Aug 2024 - Dec 2024

- Gained extensive experience in supply chain projects (zanjiretamin.com).
- Became proficient in the Yii framework, mastering its MVC architecture, ActiveRecord (ORM), widgets, and search models.
- Utilized Docker and Docker Compose for containerizing applications.
- Used Temporal for project orchestration and RabbitMQ for microservice communication.
- Experienced with NoSQL databases (MongoDB) and graph databases (Neo4j).
- Optimized Redis for database caching and OTP (One-Time Password) storage.
- Familiar with MinIO and S3 cloud storage solutions.
- Proven ability to collaborate effectively within large development teams.

Skills: PHP, Laravel, Yii2, PostgreSQL, MySQL, MongoDB, Redis, RabbitMQ, MinIO, Neo4j, Docker, Docker Compose, Temporal, Linux.

GoldenSports, Tehran — *Back End Developer*

Aug 2023 - July 2024

- Contributed to the backend development of a platform for the Austrian Small-field Football Federation, used for managing football leagues and events.
- Gained deep proficiency in the Laravel framework, focusing on building a scalable MVC architecture.
- Developed and documented secure RESTful APIs using Swagger, API Resources, and controller requests.
- Implemented robust authentication and authorization systems using Laravel Sanctum, JWT, and Gates.
- Managed database operations using Eloquent ORM (with MySQL) and database migrations.
- Utilized core Laravel concepts like Service Providers, Middlewares, and Blade views to deliver features.

Skills: Laravel · MySQL · PHP · PhpMyAdmin · Swagger API

Freelance Web Developer, Freelance — *Back End Developer*

Feb 2022 - Aug 2023

Skills: PostgreSQL · Django · Python (Programming Language) · Git · MySQL · PHP · Tailwind CSS · Heroku · Flask · Laravel · Django REST Framework · Pay star · Php · PhpMyAdmin

Snappfood, Tehran — *Call center Agent*

Aug 2017 - Feb 2022

- Worked as a Contact Center Specialist at SnappFood, managing high-volume customer interactions in a fast-paced tech environment.
- Developed strong problem-solving and communication skills by handling complex inquiries and resolving customer complaints.
- Demonstrated the ability to adapt quickly to new procedures and thrive in a high-pressure atmosphere.
- Consistently achieved performance targets (KPIs) while working effectively within a large team.

Skills: KPIs · Communication · Presentation Skills · Jira

EDUCATION

Payam-e Noor, Tehran — *B.S. in Architectural*

Oct 2009 - Jan 2013

Payam-e Noor, Tehran — *B.S. in Computer engineering*

Oct 2023 - Present

In order to increase my technical knowledge in the field of computer engineering, I am studying computer engineering in the form of virtual education.
